# HIGHLIGHTS OF THE 2000-2001 WATERFOWL SEASON

**1 You must obtain a Migratory Game Bird Harvest Information Program (HIP) registration number to hunt migratory game birds (waterfowl mourning dove, band-tailed pigeon and sandhill crane). A license must be purchased before obtaining a HIP registration number. Hunters will be required to carry proof of their HIP registration number while hunting these species.**

**2 On January 1, 2001, the Wildlife Habitat Authorization will be eliminated. Small game and combination license fees will be increased to capture the cost of the Wildlife Habitat Authorization. Listed below are the new license fees:**

## **Resident**

2001 Small Game License (12-13 years of age) \$11

2001 Small Game License (14 years of age or older) \$17

Combination License \$32

## **Nonresident**

Small Game License (12 years of age or older) \$45

**3 Swan hunt permits and boundary changes:** The number of swan permits has been reduced to 2000, but the season is longer.

Note the new boundary: Boundary begins at I-80 and I-15. North on I-15/I-84 to the Forest Street exit. West on Forest Street to the Bear River Refuge boundary. North and west along the Bear River Refuge boundary to the furthest west boundary of the Refuge. West along an imaginary line to Promontory Road. North on Promontory Road to the intersection of SR-83. North on SR-83 to I-84. North and west on I-84 to SR-30. West and south on SR-30 to the Utah-Nevada state line. South on the Utah-Nevada state line to I-80. East on I-80 to I-15.

**4 On October 7, shooting hours will begin at 8:00 a.m. in Salt Lake, Davis, Weber, Box Elder and Cache counties. Shooting hours outside of these counties will begin at one-half hour before official sunrise. Note also, shooting times for pheasant and quail opener Nov. 4.**

**5 Hunter Education.** If an applicant for a resident or nonresident hunting license has completed a hunter education course and is applying for a hunting permit or license through the Division's drawings, Internet site, or other electronic means authorized by the Division, the applicant's hunter education number and the name of the state, province, or country that issued the number may constitute proof of completion of a hunter education course. The Division may research the hunter education number to verify that the appli-

cant has completed a division-approved hunter education course.

**6 Swan permit** draw results will be posted by Sept. 25. Remaining permits will be sold by mail-in application only beginning Oct. 2.

**7 Special Youth Hunting Day** is Sept. 30. Shooting hours begin at 8:00 am. Parts of the Bear River Refuge will be open for Youth Hunting Day.

**8 PRIVATE LANDS:** While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands you must also obtain WRITTEN permission from the landowner or an authorized representative of the landowner.

## License Revocation

The Utah Division of Wildlife Resources has the authority to revoke hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly and flagrantly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative revocation up to a period of five years. The Division serves notification of such action only after criminal proceedings have been concluded. Any Utah order of revocation may be recognized in other states participating in the Wildlife Violator Compact, including Arizona, Colorado, Idaho, Maryland, Minnesota, Missouri, Montana, Nevada, Oregon, Washington, and Wyoming.

The Division of Wildlife Resources is funded by the sale of hunting and fishing licenses and through federal aid made possible through an excise tax on the sale of firearms and other hunting and fishing-related equipment.

## ATTENTION ALL MIGRATORY GAME BIRD HUNTERS

In the fall of 1998, Utah implemented a new, federally mandated program to improve knowledge about the harvest of migratory game birds, including mourning doves, band-tailed pigeons, swans, sandhill cranes, geese, ducks, coots and snipe.

The Utah Division of Wildlife Resources cooperates with the U.S. Fish and Wildlife Service in implementing the Migratory Game Bird Harvest Information Program (HIP).

The purpose of this program is to improve management of the nation's migratory game bird populations by collecting better information on hunter participation and harvest.

Anyone hunting mourning doves, band-tailed pigeons, sandhill cranes, swans, geese, ducks, coots or snipe will be required to register in the HIP program. There is no charge to register. To do so, all migratory game bird hunters must call 1-800-WETLAND

(1-800-938-5263) and provide their hunting license number and license code key, phone number, name, address, date of birth and the approximate number of doves, ducks and geese they harvested the previous year. Hunters will then be given a HIP registration number they must write on their license in the space provided. Lifetime license holders will be provided a sticker to attach to the back of their license card for entry of the current season's HIP number. While afield, migratory game bird hunters will be required to prove that they have registered in the HIP program by presenting their hunting license with their HIP number written on it.

Some hunters will receive a follow-up diary in the mail to keep track of their effort and harvest during the year and be asked to return it after the season to the U.S. Fish and Wildlife Service. This information will be used to estimate hunter activity

and success. Improved harvest information will allow Utah and the U.S. Fish and Wildlife Service to make better management decisions.

The HIP registration number is much like a duck stamp, in that it is valid for the entire 2000-2001 waterfowl hunting season even though you need a new hunting license each January.

For example, if you are hunting ducks in January 2001 you will need a new 2001 hunting license, but your HIP number from the fall of 2000 is still valid. The Division advises waterfowl hunters to write their HIP number from the previous fall on their new license in the space provided. Hunters must register again in the fall of 2001 for the 2001-2002 season and write their new HIP registration number on their 2001 license in the second space provided.

### **A. GENERAL REGULATIONS**

#### **R657-9-32**

The refuges are part of the U.S. Fish and Wildlife Service National Wildlife Refuge System. Following are three of over 500 refuges across the nation and U.S. territories. A few regulations apply to these areas:

(1) Current state and federal regulations apply for season dates, shooting hours, and bag and possession limits.

(2) Steel shot must be used to hunt waterfowl, including coots and mergansers.

(3) Hunters may not enter closed areas to retrieve birds. Therefore, allow enough room between the closed area boundary and where hunting to retrieve birds.

(4) Camping is not permitted on the refuges.

(5) Prohibited activities include wood cutting and gathering, littering, disturbing or removing plants or natural objects, and removing artifacts of antiquity. Shell casings and ammunition boxes are litter. Failure to make a reasonable effort to retrieve litter could result in a citation.

### **B. BEAR RIVER**

#### **50 CFR 32.64 & 50 CFR 27.21**

(1) A valid swan permit is required for hunting swans. From November 1 to December 10 the northwest corner of Unit 2 is limited to only hunters possessing a swan permit (map available at refuge). Hunters who take or attempt to take swans on the Bear River Refuge may not use or possess more than ten shells per day. Minors with swan permits may have one adult accompany them into the field for swan hunting.

(2) Any firearms in vehicles must be completely unloaded, including the magazine, and in a case or dismantled.

(3) Firearms may not be discharged on or within 100 yards of principal roads (tour route).

(4) The use of pits and permanent blinds are not allowed. The building of a temporary blind made of natural material is permitted, but is not allowed prior to opening day.

(5) The refuge closes two hours after shooting hours end.

(6) Parking on the refuge is permitted in designated parking areas only.

(7) Bear River Refuge units 1A and 2B will be open for the youth waterfowl hunt (September 30, 2000).

(8) Archery hunting is not allowed on the refuge.

(9) Fox and snipe hunting are not allowed on the refuge.

(10) For more information, contact the refuge manager at (435)723-5887.

### FISH SPRINGS

(1) Waterfowl hunters must register at the refuge headquarters before entering hunting areas and prior to leaving the refuge.

(2) A special blind area, for use by the mobility impaired, is available. Trespass for any reason into the special blind area by any individual not registered to utilize this area is strictly prohibited.

(3) Rifles and handguns are not permitted on the refuge unless they are unloaded and cased or dismantled.

(4) Hunters may construct non-permanent blinds within the hunting areas. All such blinds constructed with material other than vegetation must be removed when they are no longer in use.

(5) The refuge closes one and one-half hours after sunset. Decoys, boats, vehicles and other personal property may not be left on the refuge overnight.

(6) Swan, goose, snipe and upland game bird hunting are not allowed on the refuge.

(7) The refuge will be open for the youth waterfowl hunt (September 30, 2000).

(8) For more information contact the refuge manager at (435)831-5353.

(2) All firearms must be unloaded, cased or dismantled and remain in the vehicle in the closed hunting areas of the refuge.

(3) The refuge will be open for the youth waterfowl hunt (September 30, 2000).

(4) Snipe and swan hunting are not allowed on the refuge.

(5) The use of pits and permanent blinds are not allowed. The building of a temporary blind made of natural material is permitted, but is not allowed prior to opening day.

## ATTENTION

### MIGRATORY GAME BIRD HUNTERS:

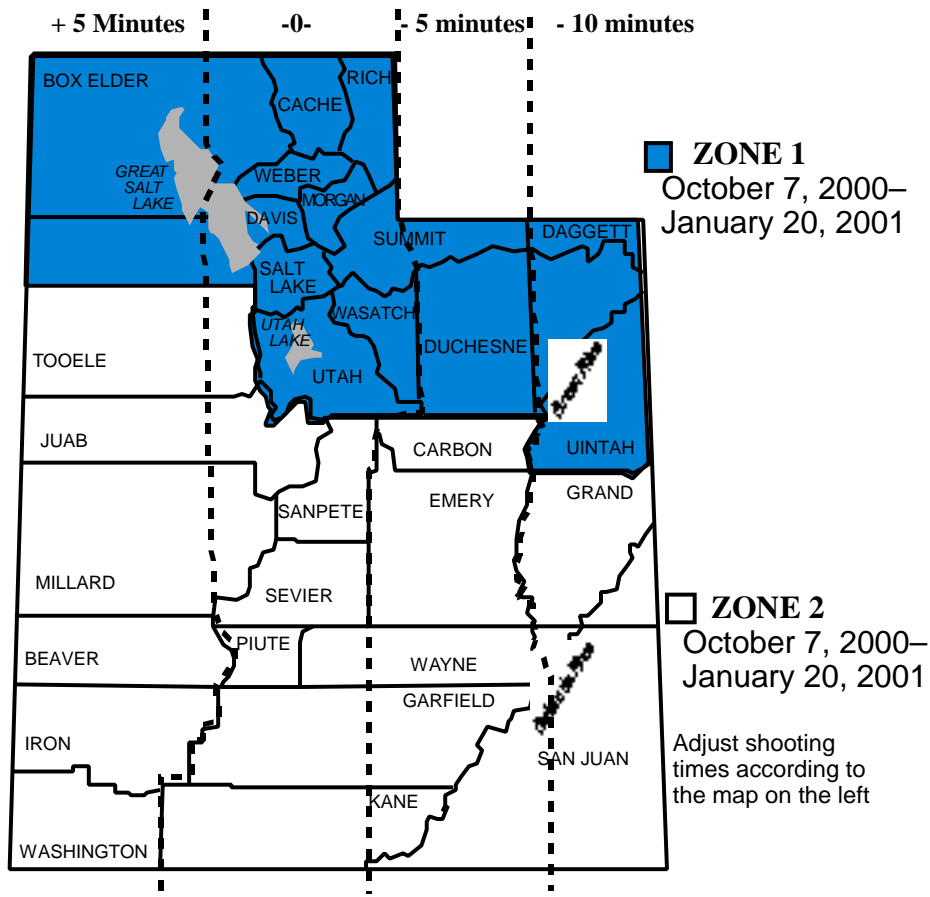

#### RETRIEVAL OF WATERFOWL

When hunting waterfowl, hunters are encouraged to have a means to retrieve waterfowl. Some locations require more extensive retrieval methods such as a dog, boat, chest waders, etc.

Please hunt where you are capable of retrieving your waterfowl.

**Report Bird Bands**  
**1-800-327-BAND**

THE OFFICIAL SHOOTING TIMES ARE ON THE NEXT PAGE.

## LITTERING:

It is against the law to litter in the state of Utah. Hunters should pick up all of their refuse, spent shotgun shells, shell bores and any other litter when leaving the marshes.

Litter is not only unsightly, but can be deadly to wildlife. Please do your part to keep Utah's wetlands clean.

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who is a locally appointed public official
- one member from the U.S. Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources, and may not serve more than two terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommen-

dations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division web site:

[www.nr.state.ut.us/dwr/dwr.htm](http://www.nr.state.ut.us/dwr/dwr.htm) (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process. If you feel strongly about an issue and wish to share your viewpoint, attend your RAC meeting and state your concerns.

Other questions may be directed to the RAC chairpersons at the following addresses or phone numbers:
